INTRODUCTION

Use this guide to replace your leaking blender bottle and get back to blending your favorite beverage.

Step 1 — Blender Bottle

- Grip the blender base with one hand and blender bottle with the other hand.
- Rotate the blender bottle a quarter turn counterclockwise .
- Lift the blender bottle out of the blender base. The blade assembly should still be attached to the blender bottle.

Step 2

- Grip the blade assembly with one hand and blender bottle with the other hand.
- Rotate the blade assembly counterclockwise until it is completely unscrewed from the blender bottle.
- Lift the blender bottle to separate it from the blade assembly.

To reassemble your device, follow these instructions in reverse order.
